Performance Audit on Employment Generation and Promotion Initiatives

February 2017

Performance Audit Report on Employment Generation and Promotion Initiatives

February 2017

DISCLAIMER NOTE

The audit was conducted in accordance with the Performance Audit Guidelines and relevant ISSAIs. The review was confined to employment generation and promotion initiatives. The audit was based on the audit objectives and criteria determined in the audit plan and programme prepared by the Royal Audit Authority and the findings are based on the information and documents made available by the audited agencies.

This is also to certify that the auditors during the audit had neither yielded to pressure, nor dispensed any favor or resorted to any unethical means that would be considered as violation of the Royal Audit Authority's Oath of Good Conduct, Ethics and Secrecy.

Reporting on Economy, Efficiency & Effectiveness in the use of Public Resources

RAA (TAD/PA-EMP)/2016-2017/ 609

20 February 2017

Hon'ble Secretary
Ministry of Labour and Human Resources
Thimphu

Subject: *Audit Report on 'Performance Audit of Employment Generation and Promotion Initiatives in Bhutan'.*

Sir,

Enclosed herewith please find the report on the *'Performance Audit of Employment Generation and Promotion Initiatives in Bhutan'*. The Royal Audit Authority (RAA) conducted the audit under the mandate bestowed by the Constitution of Kingdom of Bhutan and the Audit Act of Bhutan 2006.

The audit was carried out with an overall objective to ascertain whether due regard was given in ensuring economy, efficiency and effectiveness in generation and promotion of employment in the country, in particular the effectiveness of employment generation and facilitation programs undertaken by the MoLHR including the adequacy and effectiveness of institutional, coordination and monitoring mechanism over the implementations those initiatives. As such, the audit gave more emphasis on reviewing the systemic issues pertinent for effective administration of employment. Further, the audit was conducted primarily in the Ministry of Labour and Human Resources (MoLHR), which is the lead agency to facilitate human resource development and employment in the country. Besides, the RAA also visited implementing agencies identified under 11th Five Year Plan (FYP) to generate employment in order to meet the employment rate target of 97.5 %. The audit covered the period from 2010 to 2015 and also included data from 2016 wherever necessary.

The report contains positive initiatives of MoLHR in overall regulatory functions and management of employment issues in the country as well as the shortcomings and deficiencies observed by the RAA. Bhutan has always given priority to creation and promotion of employment in all its FYPs. Creating gainful employment with a focus on quality of employment is a key importance for the Government as reflected in planning and strategy documents including the 11th FYP. The Government has commitment to reduce unemployment rate to 2.5%, which is cited as one of the 16 National Key Results Areas (NKRAs) in the 11th FYP.

The Labour and Employment Act of Bhutan was enacted in 2007 and the National Employment policy was drawn in 2013. Further, the MoLHR, as a lead agency to

facilitate employment, has initiated several employment generation and promotion programmes that were successful in supporting many unemployed youths. Important accomplishments and progressive developments noted are highlighted in ***Part 1, Chapter 3*** of the report.

Notwithstanding these achievements, RAA also observed certain lapses and deficiencies, where corrective actions and improvements are necessary to render the employment management more effectively in the country. Inadequacies observed are detailed in ***Part 2 of Chapter 3*** of the report and some of the pertinent shortcomings and deficiencies are highlighted below:

- Absence of effective coordination, monitoring, and reporting mechanism amongst sectors and agencies to achieve the common goal of employment;
- Lack clear delineation of responsibilities and coherence amongst relevant sectors/agencies at the operational level;
- Labour market need assessment not carried out for employment facilitation initiations;
- Impact assessment was not carried out to evaluate the impacts of the employment generation programme;
- No mechanism in place to supervise and monitor the progress of programs during and after the support period to ensure that there was return on investment;
- Prevalence of chronic Jobseekers in the Job market accounting to 17,135 unemployed youth as of 30th June 2016;
- Non-regularisation of services on completion of the contract period;
- Adequate safety measures were not put in place for the Bhutanese employed overseas of through Bhutanese Overseas Employment Agents (BOEAs); and
- Absence accurate and reliable information on employment impeding effective decision making.

The report has been prepared based on the review of documents made available by MoLHR and based on discussions with relevant officials and employment generation programmes' beneficiaries. The draft report was issued on 22nd November 2016 to the MoLHR for factual confirmation, comments, and feedbacks. Responses received from the Ministry have been incorporated and appended in this report as **Appendix-II**. The report also contains a set of recommendations, which are intended to help the Ministry in addressing the shortcomings and deficiencies thereby enhancing economy, efficiency and effectiveness in the management of employment generation in the country.

In line with the directives of the Parliament, the RAA has instituted a system to fix the accountability on the officials responsible to implement recommendations provided in the Performance Audit Reports. Therefore, we would request the Ministry to identify supervisors who should be responsible for implementation of each recommendation and submit duly completed and signed Accountability Statement (attached) to the RAA. In the event of non-submission of the Accountability Statement, the RAA shall fix the

responsibility for implementation of the recommendations on the Head of the Agency. The RAA will follow up implementation of the recommendations based on the Accountability Statement and failure to comply will result in taking appropriate actions, which may include suspending audit clearances to the accountable official(s).

The RAA would therefore appreciate receiving an Action Plan for implementation of audit recommendations with definite timeframe on or before 22nd May 2017 along with the signed Accountability Statement.

The RAA would like to thank the Ministry for the support and co-operation extended during the audit.

Yours sincerely,

(Tshering Kezang)
Auditor General of Bhutan

EXECUTIVE SUMMARY

ABOUT THE REPORT

The Royal Audit Authority (RAA) conducted the “Performance Audit of Employment Generation and Promotion Initiatives in Bhutan” as mandated by the Constitution of the Kingdom of Bhutan and Audit Act of Bhutan 2006 primarily focusing on ascertaining the economy, efficiency and effectiveness in the employment generation and promotion initiatives in Bhutan. The audit was conducted covering the period from 2010 to 2015.

Creating gainful employment with a focus on quality is a key priority for the Royal Government of Bhutan (RGoB). Unemployment in Bhutan was first witnessed in 1990s which was then 1.4%. An increasing trend in unemployment was noted starting from 1.9% in 2001 to 4.0% in 2009 and thereafter a fluctuating trend with unemployment rate of 2.1% in 2012 and 2.9% in 2013. The recent Labour Force Survey Report (LFSR) 2015 reported current unemployment rate as 2.5% thereby achieving the employment target of 97.5%. Yet, youth unemployment is still a glaring issue which has been reported in all LFSRs. Currently youth unemployment stands at 10.7%.

Ministry of Labour and Human Resource (MoLHR), as the lead agency, had initiated various employment facilitation programmes to address employment related issues in the country. The employment facilitation programmes are broadly categorized under Guaranteed Employment Programme (GEP), Internship Programmes and Skills Development Programmes (SDP).

POSITIVE INITIATIVES

The RAA noted positive initiatives of the MoLHR in overall regulatory functions and management of employment issues in the country and these are summarized below:

- i. Development and implementation of National Employment Policy 2013 and various employment facilitation programme guidelines;
- ii. Introduction of an online system i.e. ***Job Portal System*** that connects employers and jobseekers, reduced administrative load;
- iii. Publication of LFSR on an annual basis that provides labour market information;
- iv. Publication of labour market information bulletin to help individuals and businesses understand the supply and demand of workforce in the labour market;
- v. Implementation of numerous programmes like GEP, SDP, entrepreneurship, technical and vocational education and training. As of date, GEP generated about 5,979 employments in various private and public sectors; and
- vi. The Ministry organizes a series of job fairs involving job seekers, enterprises and training providers creating platform for job seekers to meet with employers and

understand the job market as well as employment opportunities both within and outside the country.

LAPSES AND DEFICIENCIES

Notwithstanding positive initiatives of the MoLHR in addressing unemployment in the country, the RAA also observed shortcomings and deficiencies, where further improvements are required. Some pertinent inadequacies impeding the effective regulatory functions and management of employment issues are briefly discussed below.

- i. Absence of effective coordination, monitoring, and reporting mechanism amongst sectors and agencies to achieve the common goal of employment that had rendered compartmentalized culture which will have serious impact on deriving synergy and achieving outcomes at the national level;
- ii. Non-development of Employment Responsibility System (ERS) delineating clear roles and responsibilities for various Ministries/Departments and other key agencies involved in employment related activities to facilitate a coordinated and integrated approach towards the employment market;
- iii. Labour market need assessment was not carried out for employment facilitation initiatives to address the gaps in the available and required skills in the labour market;
- iv. Impact assessment was not carried out to evaluate the impacts of the employment generation programme;
- v. No mechanism in place to supervise and monitor the progress of programmes during and after the support period to ensure that there was return on investment;
- vi. Prevalence of chronic Jobseekers in the Job market accounting to 17,135 unemployed youth as of 30th June 2016, which contradicts the achievement of 2.5% unemployment target;
- vii. Non-regularisation of services on completion of the contract period totaling to 1,268 out of 2,401 participants involving cost implication of Nu. 81.246 million;
- viii. 1,027 persons enrolled in more than one programme resulting in additional cost implication of Nu.72.91 million;
- ix. Adequate safety measures were not put in place for the Bhutanese employed overseas through Bhutanese Overseas Employment Agents (BOEAs) resulting in issues such as untimely and exploitative payments, excessive working hours, unsafe working conditions, etc.;
- x. Lack of reliable and accurate information on employment impeding informed decision.

RECOMMENDATIONS

Based on the audit findings, the RAA has provided series of recommendations that are aimed at enhancing efficiency and effectiveness in the overall regulatory functions and management in addressing unemployment in the country. Some of the important recommendations are as summarized below.

- ✓ The MoLHR, as the lead agency, should take the lead role by taking all relevant sectors on board to develop clear strategic response in addressing the unemployment problem and ensuring communion approach, which is sustainable and effective in attaining desired outcome at the national level;
- ✓ The MoLHR should develop the Employment Responsibility System (ERS) to outline clear roles and responsibilities for various Ministries/Departments and other key agencies involved in employment related activities and to facilitate a coordinated and integrated approach towards the employment market;
- ✓ The MoLHR should conduct a detailed labour market need assessment to find out the gaps between current conditions and desired conditions in the labour market;
- ✓ The monitoring and supervision must be extended beyond completion of training to safeguard and ensure return on investment and employment is sustained;
- ✓ MoLHR should conduct a detailed study on the labour market and youth unemployment in particular to understand the actual problem and develop a practical strategy improvising on the already implemented programmes. Further, the Ministry should develop new design to provide employment to the chronic jobseekers;
- ✓ The MoLHR should ensure enforcement and implementation of the provisions of the Regulations by way of strict monitoring and supervision on the operations of the BOEAs to ensure efficient delivery of services in terms of overseas employment; and
- ✓ The MoLHR should develop and update information on all employment generation and facilitation activities in the country.

CONCLUSION

The MoLHR demonstrated positive contributions towards addressing unemployment issue in the country such as development of policy framework and guidelines, institutionalization of employment information management system, publication on labour market, organising job fairs and generation of employment through various employment facilitation programmes.

Despite the positive initiatives by the Ministry, the RAA observed compartmentalised culture of pursuing common goal of employment. There exist lack of coordination, communication and reporting mechanism as well as integrated and cohesive approach amongst agencies and sectors, due to which, the Ministry was not able to provide accurate information on unemployment. Further, the RAA noted that labour market need assessment was not carried out, monitoring and supervision mechanism were not in place. Impact assessment of various programme initiatives were also not carried out. All these inadequacies impeded effective implementation of the employment generation and facilitation programmes. Overall, the employment facilitation programmes were ineffective in achieving the targeted number of employment, regularising jobs to all those who had availed benefits through the programmes, addressing chronic job seekers as intended, and most of all, reducing the youth unemployment rate.

Although the latest LFSR 2015 claimed achievement of target employment rate of 97.5%, the prevalence of underemployment, high proportion of employment in informal sectors, increasing numbers of unemployed qualified youths as discussed in the report, raises doubts on achievement of employment target as claimed in the LFSR 2015. Moreover, reduction in unemployment rate to 2.5% does not seem to correspond with the number of 17,135 chronic job seekers as reported in Job Portal System of the Ministry. In absence of integrated, reliable and updated information on employment, the validity of achievement of employment target of 97.5% cannot be independently corroborated.

The RAA hopes that the information, findings and recommendations contained in the report would be useful in formulating appropriate strategies, effective decision making and instituting/strengthening systems and processes to achieve common goal of addressing the unemployment problem in particular enhancing effectiveness of employment generation and facilitation programmes initiated by the Government.

CHAPTER 1: ABOUT THE AUDIT

Mandate

The Royal Audit Authority conducted the “Performance Audit of Employment Generation and Promotion Initiatives in Bhutan” as mandated by the Constitution of the Kingdom of Bhutan and Audit Act of Bhutan 2006 under the following article and section:

- i. Article 25 (1) of the Constitution of the Kingdom of Bhutan and Section 3 of the Audit Act of Bhutan 2006 provide that *“There shall be a Royal Audit Authority to audit and report on the economy, efficiency, and effectiveness in the use of public resources”*; and
- ii. Section 38 (b) of the Audit Act of Bhutan 2006, under the *“functions of the Royal Audit Authority”* states, the Authority shall, *“Conduct Performance Audit to ascertain and report on the economy, efficiency and effectiveness of the operations of agencies audited”*.

Audit Objectives

The audit was conducted with the overall objective of ascertaining the economy, efficiency and effectiveness in the employment generation and promotion initiatives. The specific objectives are:

- i. To ascertain the efficiency and effectiveness of the government in creating jobs as committed in the 11th FYP;
- ii. To assess the existence and effectiveness of institutional framework and co-ordination amongst the collaborating agencies involved in employment generation and promotion initiatives; and
- iii. To assess the efficiency and effectiveness of the employment promotion and facilitation programmes of Ministry of Labour and Human Resources in aiding youth employment.

Audit Scope and Limitations

This audit on employment generation and promotion initiatives was conducted covering the period from 2010 to 2015. However, data from the year 2016 have also been included to enhance the understanding and providing better perspective on aspects and issues examined. The audit covered the employment facilitation and promotion programmes initiated by MoLHR mainly focusing the following programmes.

- i. Guaranteed Employment Programme (GEP)
 - a. Direct Employment Scheme (DES);
 - b. Overseas Employment Scheme (OES); and

- c. Employment Skills Scheme (ESS);
 - i. Youth Employment Skills (YES); and
 - ii. Graduate Skills Programme (GSP).
- ii. University Graduates Internship Programme (UGIP);
- iii. Apprenticeship Training Programme (ATP); and
- iv. Pre-employment Engagement Programme (PEEP).

The RAA had visited other relevant agencies entrusted to generate employment as per the 11th FYP and had conducted discussions wherever necessary.

The limitation of the audit was non-availability of records on employment generated by various government agencies identified in the 11th FYP. Due to non-availability of records the RAA could not comment on the status and progress on employment target set as per the 11th FYP. The audit findings and opinions expressed are limited only to those records and information made available to the RAA.

Audit Methodology

The audit methodologies adopted by the team for carrying out the audit were:

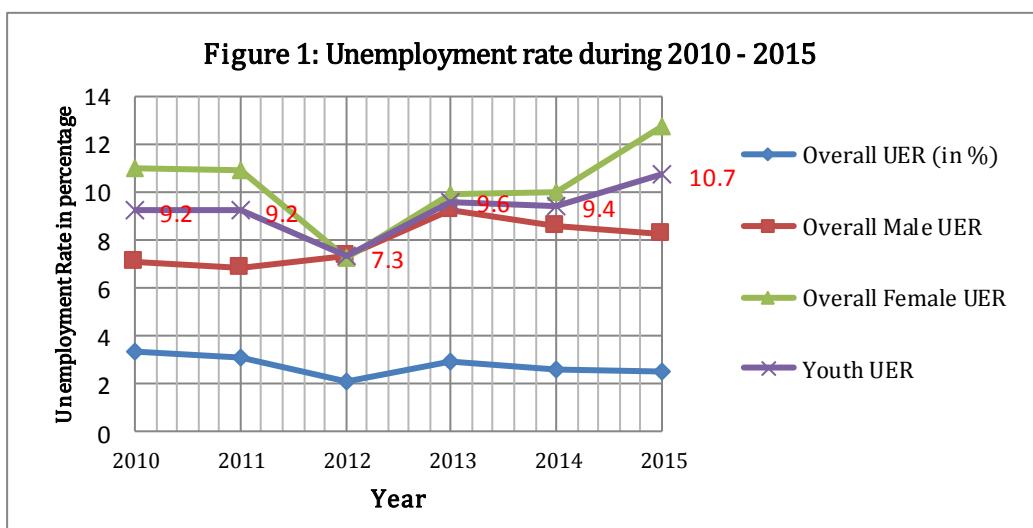

- i. Understanding of legislations, underlying rules and regulations, government policies that are directly related to employment in the country such as Labour and Employment Act of Bhutan 2007, National Employment Policy 2013, Guidelines on various programmes initiated by MoLHR, etc.;
- ii. Referring to Economic Development Policy (EDP) 2010, publications and other studies conducted by government and other institutions;
- iii. Review of documents and correspondences provided by Department of Employment (DOE) and Department of Human Resources (DHR) under MoLHR;
- iv. Interviews and discussions with key officials of the audited agencies;
- v. Observation – walk-through of the information management system of MoLHR, field visit to training institutes and partner agencies/employers; and
- vi. Analysis of data using the computer assisted tools (IDEA Software).

CHAPTER 2: INTRODUCTION

Overview

Unemployment is one of the major socio-economic problems faced by many developing and developed countries. In Bhutan, creation and promotion of employment has been the development priority of the Royal Government of Bhutan in all Five Year Plans. Creating gainful employment with a focus on quality of employment is a key priority for the Royal Government as reflected in planning and strategy documents including the 11th FYP. The government has a commitment to reducing unemployment rate to 2.5% which is one of the 16 National Key Results Areas (NKRAAs) in the 11th FYP.

Unemployment situation was first witnessed in 1990s which was then 1.4%. Bhutan experienced an increasing trend in unemployment rate starting from 1.9% in 2001 to 4.0% in 2009 and thereafter a fluctuating trend with unemployment rate of 2.1% in 2012 and 2.9% in 2013. As per the recent Labour Force Survey Report (LFSR) 2015 the current unemployment rate is 2.5%, thereby achieving the full employment target. The unemployment rate of Bhutan experienced over the years is illustrated in the Figure 1.

Source: MoLHR

As illustrated in Figure 1, youth unemployment is the critical issue in the country which has been one common feature in all LFSRs. In 2015, youth unemployment rate was 10.7% and constituted the major proportion of the total unemployment. In aggregate, the female unemployment rate was higher than male unemployment rate. The trends show an increase in youth unemployment, increasing from 7.3% in 2012 to 10.7% in 2015. Over the same period, unemployment among male youth increased from 7.3% in 2012 to 9.2% in 2013 and dropped from 9.2% in 2013 to 8.2% in 2015 whereas, female unemployment increased from 7.2% in 2012 as high as 12.7% in 2015.

However, the consistent efforts of the Royal Government and relevant sectors in employment generation had reduced the overall unemployment rate to 2.5%. However reducing youth unemployment is a challenge, which is on constant rise.

Key indicators of Labour Market

Table 1: Key indicators of Labour Market for the period 2010-15

Indicators	2010	2011	2012	2013	2014	2015
Estimated Population	696,500	713,200	734,850	745,939	755,710	764,667
Population within working age	484,000	496,000	522,367	529,178	557,048	556,944

Eleventh Five Year Plan Target on Employment

It is projected that about 120,000 jobseekers would be entering into the labour market during the 11th FYP period. More than 60% of the total projection is expected to be with educational qualifications of class X and above. The Royal Government in order to achieve the full employment of 97.5% during the 11th FYP period has to create additional 82,000 jobs. The committed number of employment generation by various government agencies for the 11th FYP is provided in Table 2.

Table 2: Employment generation targets for the 11th FYP

Sector	2013	2014	2015	2016	2017	Total
Agriculture	3,500	3,828	4,255	4,612	4,997	21,192
Hydro Construction	2,406	2,632	2,925	3,170	3,435	14,568

Total	13,562	14,834	16,488	17,870	19,363	82,117

Source: 11th FYP main document- Volume I

Table 2 shows the identified economic sectors and employment to be generated during the 11th FYP. The economic sectors were selected based on their potential and capacity to employment generation, revenue contribution and providing returns to the entrepreneurs. As can be seen from Table 2, the priority sectors identified for employment creation include Hydropower, Agriculture, Tourism, Small and Medium Enterprises, Construction, Information Technology (IT) and IT enabled services, and Manufacturing industries and Foreign Direct Investment (FDI).

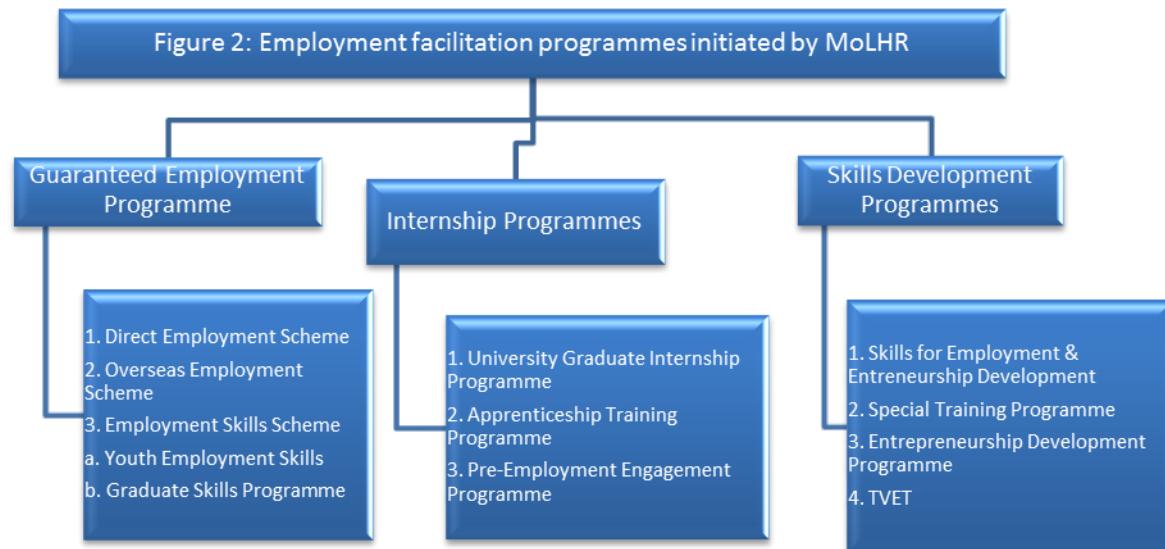

Legal and Policy Framework

Labour and Employment in Bhutan is governed and regulated under the Labour and Employment Act of Bhutan 2007 and National Employment Policy 2013. The MoLHR as the lead agency for labour and employment management in the country aims to facilitate human resource development for economic development and to ensure gainful employment for all Bhutanese workforces. The Ministry is mandated to promote employment through a provision of an effective employment and labour market information services and facilitate job creation.

There are four departments under the Ministry to effectively deliver the mandates namely, Department of Labour (DoL), Department of Employment (DoE), Department of Human Resources (DHR) and Department of Occupational Standards (DOS). While the DHR is responsible in developing and implementing the national Technical Vocational Educational and Training (TVET) system and human resource development of the Private and Corporate sectors to support development of skilled, productive and professional workforce in the country, DOE is responsible in promotion and facilitation of gainful employment through provision of effective employment services. The DOS strives to develop high quality skilled workforce to drive and sustain economic growth through setting of National Competency Standards and regulating the quality of TVET in the country. The DoL is entrusted with the responsibilities for employment conditions, safety and health at work, social security and protection, foreign workers management, labour dispute settlement, collective bargaining and dispute settlement.

Employment Facilitation Programmes

The MoLHR through its departments had initiated various employment facilitation programmes to address employment related issues in the country. Figure 2 shows the employment facilitation programmes initiated by the Ministry.

The facilitation programmes are broadly categorized under Guaranteed Employment Programme, Internship programmes and Skills Development Programmes. The programme wise modality of delivery and approach is provided in **Annexure I**.

The expenditure for the implementation of the aforementioned facilitation programmes are met from Royal Government of Bhutan and Economic Stimulus Plan (ESP) funded by Government of India (GoI). The budget and expenditure for the programmes during the period 2010-11 to 2015-16 is presented in the Table 3.

Table 3: Budget and Expenditure for employment promotion and facilitation programmes

Sl. No	Programme	Status of Programme	Source of Funding	Year	Annual Budget	Annual Expenditure
1	Employment Skills Scheme (ESS)	On-going	ESP	2014-2015	27,370,000.00	27,265,601.00
	Youth Employment Skills (YES)	On-going	ESP	2015-2016	38,659,000.00	31,927,711.00
	Graduate Skills Programme (GSP)	On-going	ESP	2015-2016	5,441,000.00	5,428,599.15

CHAPTER 3: AUDIT FINDINGS

The chapter on audit findings is divided into two parts; **Part 1** highlights the positive achievements of the MoLHR in the overall regulatory functions and management of employment in the country. **Part 2** highlights the lapses and deficiencies.

PART 1: POSITIVE INITIATIVES OF MOLHR IN OVERALL REGULATORY FUNCTIONS AND MANAGEMENT OF EMPLOYMENT ISSUES IN THE COUNTRY

The DoE, DHR, DOS under the MoLHR have made positive changes contributing in addressing unemployment issue through various employment facilitation programmes. Some of the positive initiatives in employment generation and promotion are discussed below:

- i. The MoLHR developed and implemented the National Employment Policy 2013 and various employment facilitation programme guidelines that guide the employment generation and facilitation programmes;
- ii. The MoLHR has introduced an online system, the ***Job Portal System*** to connect employers and jobseekers. The system aids in reducing administrative load and renders effective monitoring and supervision by the Ministry. Further, the system had aided jobseekers in providing easy access to information on employment opportunities in the country;
- iii. The Labour Market Information & Research Division (LMIRD) of the DoE, MoLHR publishes a national labour force survey report on an annual basis which provides labour market information of the country. The LFSR is an informative and useful document that enables its users at all levels of administration, decision making, planning, research, etc., to assess the past, current and emerging labour market scenario in the country;
- iv. LMIRD also publishes a labour market information bulletin intended to help individuals and businesses understand the current situation of the supply and demand of workforce in the labour market;
- v. The MoLHR through its departments, towards addressing employment challenges, has been implementing numerous programmes like GEP, skills training, entrepreneurship, vocational qualification framework and diversification of technical and vocational education and training. As of date, GEP generated about 5,979 employments in various private and public sectors; and
- vi. The Ministry organises series of job fairs involving job seekers, enterprises and training providers providing an opportunity for job seekers to meet with employers and understand the job market and employment opportunities both within and outside the country.

PART 2: LAPSES AND DEFICIENCIES

The RAA's review and analysis of the available documents and information on employment generation, promotion initiatives and facilitation programmes for the period 2010-15 revealed various shortcomings and deficiencies as discussed below.

2.1 Absence of effective coordination, monitoring and reporting mechanism towards achievement of employment target

The development outcomes of the 11th FYP formulated as National Key Result Areas (NKRAAs) and Sectoral Key Result Areas (SKRAs) are defined and aligned to four pillars of Gross National Happiness (GNH). Employment is one of the 16 identified NKRAAs to realize the 11th FYP objective of '*Self Reliance and Inclusive Green Socio-Economic Development*'. As per the 11th FYP document about 82,000 new jobs needed to be created for approximately 120,000 job seekers, to ensure employment of 97.5% in the country during the plan period. Accordingly, projections were estimated to create jobs in order to ensure full employment.

The inadequacies and shortcomings pertaining to achievement of employment target are detailed below:

2.1.1 Lack of clear delineation of responsibilities and coherence amongst relevant sectors and agencies

- i) Strategic plan renders basis to prioritize activities, focus resources, strengthen operations, establish accountability and ensure organisation work towards the common goal and achieve the target. Operational plans are drawn for the strategic plan to provide specific and detailed guidance in implementation of activities at various levels contributing to the achievement of strategic goals.
- ii) Employment generation being a multi-sectoral issue, development of strategic and operational plan involving all key sectors is of critical importance. The FYP document serves as the strategic plan for the national development, and the generation and facilitation of employment is realized through NKRAAs and SKRAs pertaining to employment. However, no strategies were developed to define roles and establish coherence amongst relevant sectors or agencies at operational level. Further, the National Employment Policy 2013 also does not identify and delineate roles, responsibilities and accountabilities of lead and implementing agencies. As such, the RAA noted inadequacies in implementing mechanisms that may potentially impede achievement of intended outcomes of the 11th FYP on employment.
- iii) The Gross National Happiness Commission (GNHC) is responsible for providing a comprehensive and sustainable development framework that is based on consultation with all government agencies clearly benchmarking the progress. As such, the GNHC had prepared and set the employment generation target for the 11th FYP in consultation with all relevant agencies. It is the responsibility of MoLHR to spearhead and coordinate with relevant sectors to achieve collective objective and meet full employment target. However, there has been lack of coordination amongst relevant agencies in employment generation. The existing system lack integrated approach towards achieving the common goals. The absence of defined framework

- for coordination, communication and reporting had apparently rendered compartmentalized culture of pursuing common goals.
- iv) Except for the annual LFSR published by the MoLHR there is no other information on the overall status of employment in the country. There is a lack of information on status of individual agencies' progress in achieving the employment targets, affecting monitoring and evaluation of performances. The MoLHR could not provide information on actual number of jobs created by the sectors identified for creating employment except for the information on employment and unemployment from the LFSR which was based on certain assumptions and methodologies adopted.
 - v) Absence of prescribed framework for coordinated and integrated approach and information and communication mechanisms amongst the implementing agencies will have serious impact on deriving synergy and achieving outcomes at the national level. It may undermine the purpose of various programmes initiated for realizing the intended outcomes and thus, resulting in waste of resources.
 - vi) Though MoLHR, as the lead agency, is mandated to pursue coordinated approach with relevant agencies to achieve the outcome, without concrete strategies harmonized across relevant sectors, MoLHR is faced with difficulties in pursuing the agencies to work together. The MoLHR alone may not have complete influence over the outcomes sought at the national level as the employment is a cross-sectoral issue.

The MoLHR, in its response, agreed with the RAA that employment generation target was not set in consultation with the relevant agencies. However, the Ministry explained that in the 11th FYP document, there are two employment projections, which are based on the employment elasticity of sectoral growth. Employment elasticity of sectoral growth captures the percentage point increase in employment in a sector when it grows by 1 percent and is derived on past trends. Multiplying projected growth rates for sectors with their respective employment elasticity give an estimate of the jobs that can be created in each sector over the next 5 years (Refer Appendix A).

Considering the interdependence amongst the agencies to achieve the common outcome, it is critical that the MoLHR, as a lead ministry, and relevant agencies adopt a coordinated and integrated approach besides instituting effective information and communication mechanism to achieve the common goal of full employment.

2.1.2 Non development of Employment Responsibility System (ERS)

- i) As per the National Employment Policy 2013, the MoLHR is the lead agency in developing and implementing the Employment Responsibility System (ERS). The ERS is a system that outlines clear roles and responsibilities for various Ministries/Departments and other key agencies involved in employment related activities and to facilitate a coordinated and integrated approach towards the employment market. The ERS shall also allocate specific employment targets for employment promotion and generation to various Ministries and agencies.
- ii) However, the MoLHR has not developed the ERS which is the most important prerequisite for a coordinated and integrated approach for meeting the collective

goal of attaining full employment. As a result, the implementing agencies as well as the lead agency are unclear about their roles and responsibilities functioning without consultation and integration.

- iii) The development and implementation of ERS will aid in meeting the collective goal by providing details of activities to be carried out by each agency and also detailing out the collaboration required. Without such system in place, inclusiveness of the policy decisions on employment issues which is cross-sectoral and interdependent in nature is questionable.

Besides agreeing to the observation, the Ministry stated that a special Task Force on Employment Creation had been formed to study and proposes strategic responses to promote job creation and economic growth. An "Employment Creation Task Force Report" was prepared in August, 2015 that covered employment opportunities in the Hydropower, Agriculture, Tourism, SMEs, IT/ITES, Manufacturing and the Civil Service. Further, the report emphasizes on the lead agency for each of the short, medium and long term strategies highlighted in the report. The same report was also presented to Cabinet on 10th May, 2016 (Refer Appendix A).

2.2 Inadequacies and inefficiencies in implementation of employment generation and facilitation programmes

- i) As per the LFSR 2015 the overall unemployment rate in Bhutan is 2.5% which is indeed reasonably low and indicates that 11th Plan target has been achieved. Nevertheless, youth (15-24 years) unemployment is a growing concern for the policy makers and the government. The LFSRs showed a steady growth of youth unemployment in the country with 9.2% in 2010 and 10.7% in 2015. Further, the issue is aggravated by increasing numbers of youth entering the labour market annually.
- ii) The MoLHR, recognising the challenges and pressing needs for youth employment, has developed policy guidelines and initiated various employment facilitation programmes through its departments emphasising promotion of the private sectors through development of skills and other employment programmes in country and overseas. The RAA reviewed major employment generation and promotion programmes implemented by the MoLHR to ascertain the effectiveness of the programmes in addressing the unemployment problems in the country. The RAA noted the following deficiencies in the implementation of the programmes.

2.2.1 Labour market need assessment not carried out for employment facilitation initiatives

- i) Labour Market Need Assessment is a systematic process for determining and addressing needs or gaps between current conditions and desired conditions in the labour market. Similarly, for the labour market of Bhutan, the MoLHR as the lead agency is supposed to engage in research to study the dynamics and necessary skills required in the labour market to be able to respond with relevant programmes and schemes to address the gaps existing in labour market. Skills mismatch, the gap between the skills required on the job and those possessed by individuals, raises the doubts on the ability of society to capitalize on the available workforce. Introduction

- of any programmes to address unemployment issues without careful consideration would lead to unsustainable initiatives.
- ii) MoLHR has initiated several programmes to facilitate and promote employment in the society. However, it was observed that the MoLHR has not conducted need assessment for any of the programmes. For instance the YES and GSP under the GEP is designed based on Rapid Market Appraisal (**RMA**), a market study conducted by the training Institutes/providers. Based on the RMA the training providers propose the MoLHR on the course, number of trainees and training duration. The training provider provides an undertaking to regularize the services of trained candidates on completion of the course.
 - iii) Other than the RMA conducted by the training provider there were no skills or training need assessment carried out by the MoLHR. The RMA report submitted by the training providers is a mere survey report on number of vacancies with different entities. The credibility of such survey reports is questionable as there was no validation process for methodologies and sources of data used for surveys. Further, there is every possibility that an entity with vacancy could be surveyed by different training providers thereby overstating the labour demand.

The requirement of Rapid Market Appraisal appeared a short term strategy requiring guarantee from the training provider to recruit the trainees after completion of the training rather than a long term strategy focusing to address the labour market issues on quality and skills requirement.
 - iv) Further, the Youth Perception Survey Report, 2014 conducted jointly by UNDP and MoLHR (Records of regularization under ESS) states that the type of skills acquired by the unemployed youth through education and trainings under Ministry of Education (MoE) and MoLHR did not translate into readily employable skills. The report has highlighted that 48% of the unemployed youth were those who had undergone training for less than a year provided by various training institutes in the country. As per the survey report, 56% of the total survey sample size (1,128 unemployed youth) had received training on skill based or vocational trainings. 42% were looking for work for more than a year and nearly 80% of those looking for work for more than a year comprised those with higher secondary and bachelor's degree. The survey report has concluded that the trainings acquired by the unemployed youths were not what are required in the market.
 - v) Thus, there were gaps in the available and required skills in the labour market which need to be addressed through appropriate labour need assessment. The situation will further worsen if timely interventions are not initiated. Therefore, without a system in place to conduct proper labour market need assessment, any employment generation and facilitation programmes or schemes will only prolong the unemployment issues if supply is not driven by the demand.

MoLHR argued that the Ministry had conducted various surveys and specific research studies on the Labour Market Need Assessment in order to bridge the skills gap in the labour market. Further, skills or training need assessment are carried out through the HRD Master plan prepared in alignment with the government's FYP. Some of the reports on labour market

need assessment published by the MoLHR are job Prospecting Surveys/Establishment Surveys, National Workforce Plan 2016-2022, National HRD Advisory Series and HRD Master Plan.

In general, the publications on labour market by the MoLHR provided information on projected jobseekers (2012-2020), potential economic sectors for employment, HRD challenges in private and different economic sectors and HRD intervention needed. However, the employment generation and facilitation carried out by the Ministry was not based on the reports rather on the requisition of different partner agencies/employers. ***The RAA would like to reiterate that, the MoLHR has not conducted skills and training need assessment for the ongoing employment facilitation programmes.***

Further, the statistics on chronic unemployment (***Para 2.2.7***), trend of unemployment (***Figure 6***), non-regularisation of services (***Para 2.2.8***) through employment facilitation programmes provide enough evidence that the current economic growth and employment facilitation programmes do not exhibit efficacy in bridging gaps between demand and supply in the labour market. Therefore, the Ministry should seriously review and focus to address the gap in the labour market through appropriate labour need assessment.

2.2.2 Lack of proper evaluation on trainings and services provided by the training Institutes

- i) The DHR, MoLHR is responsible to implement the ESS by engaging unemployed youth with class XII pass and above and developing their skills to address the immediate labour market requirement. The revised 'Regulations for Registration of Training Provider 2014' governs the establishment of training institutes both public and private based on market demand and regulate the quality of training offered by the institutes in the country.
- ii) The DOS, MoLHR is responsible for enforcement of the regulations. It is the responsibility of the DOS to evaluate the performance of the training provider and determine whether the intended results have been achieved or not. Thus, it is vital that DOS carry out regular monitoring and supervision to assess the quality of the trainings provided. This will also ensure that the trainees are not left at the mercy to be exploited by the training providers.
- iii) As required and mandated the DOS regulates the quality of training programmes of all the training institutes, both public and private registered with DOS. In the current scenario, the monitoring by the Department is limited to training period. Once the training is completed and the trainees employed with different agencies, neither MoLHR carries out monitoring nor is the employed candidate required to report to the Ministry. The only supporting document to authenticate that the candidate has been employed is the appointment letter submitted to the Ministry. Accordingly, the employment status is updated as 'regularized or employed' in the information management system. Moreover, the MoLHR has not carried out any impact assessment to ensure that intended outputs are delivered and the investments made have been justified.
- iv) Without assessment being carried out, it is difficult to ascertain whether the trainings were relevant and the candidates were provided with continued quality

employment as intended. The RAA noted several instances of non-regularised services of trainees as detailed *in Para 2.2.8* which necessitate continued evaluation during the post training period to ensure that the intended objectives of the programmes are achieved.

2.2.3 Sustained impact yet to be created through employment generation programmes

- i) The government had provided the Ministry with support in terms of required resources to address the youth unemployment issue to help achieve the overall goal of full employment in the country.
- ii) The MoLHR through its departments has been actively facilitating and providing support in skills trainings and short term employment to benefit the individuals, enabling them to get absorbed in the job markets. However, there was no impact assessment carried out to evaluate the impacts of the employment generation programme. While almost 80% of the total budget expended, the intended benefits of the initiatives is yet to be seen.
- iii) As per the literature review, little is known about the time it takes for the full welfare impacts of an improved initiatives in addressing unemployment and how quickly intermediate impacts emerge and how short term impacts on these outcomes may differ from long term impacts. In general, the welfare impacts of such initiatives are expected to take some time. However, an evaluation if not conducted timely could vastly under- or over-estimate the net impacts on social and economic front. The more time one allows for impacts to emerge, the more the evaluation needs to contend with potential attrition in the data whereby some sampled units drop out, that make it harder to assess the impacts of the original initiative.

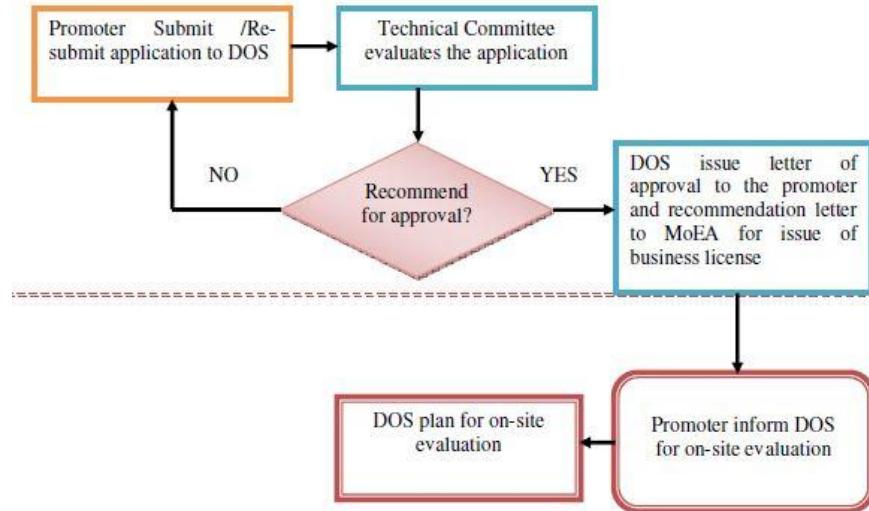

MoLHR agrees to the audit observation and explained that the Ministry is currently developing the fourth National HRD Advisory Series with focus on assessing various schools to work transition program support and services provided by the MoLHR. The schools to work transition programs include different internship and training support provided to the job seekers (Refer Appendix A).

While acknowledging the efforts of MoLHR, the RAA urges the Ministry to carry out detail impact assessment of the employment generation programme to ascertain whether the intended benefits of the initiatives are achieved.

2.2.4 Existence and sustainability of training institutes depended on employment facilitation programmes

- i) The field visit to private training institutes in Thimphu and Paro revealed that the introduction of employment facilitation programmes had resulted in new business establishment in the field of hospitality and management, hair and beauty spa, tailoring, etc. Based on the review of documents and as per the requirement of the 'Regulations for Registration of Training Provider 2014' the procedures and prerequisites to start training institute do not require and entail lengthy administrative procedure. Figure 3 presents the flow chart for applying and approval of a training institute.

Figure 3: Flow chart for applying and approval of a training institute

- ii) During the field visit it was observed that the existence of almost all the training institutes such as M/s Yarab Institute for Hospitality & Management, Tenzin's Hair & Beauty Academy, Druk Tshemzo Tailoring Institute, and M/s iBEST Institute all located in Thimphu were dependent on the employment facilitation programmes of the MoLHR. All employees in these institutes are those enrolled under DES and trainees enrolled under YES. Further it was observed that these Institutes did not have any self-funded participant in any of the training programmes provided so far, except for one trainee in M/s Tenzin Hair and Beauty Academy.
- iii) The existing liberal system of licensing & registration and huge resources for employment facilitation programmes provide opportunities to the aspirants to undertake business ventures in programme related to employment generation and facilitation in the country. Nevertheless, the existence and sustainability of these institutes is uncertain if the government decides to discontinue the employment facilitation programme.

The MoLHR responded that the Ministry does not provide support to viable programs like Commercial accountancy courses, basic computers programs etc. rather provides support to non-viable programs where there is labour market requirement but individuals are not willing to pay for programs, such as construction courses, hospitality courses, etc. (Refer Appendix A).

2.2.5 Inadequacies in implementation of programmes due to differences in financial benefits

- i) The MoLHR has initiated several employment generation and facilitation programmes which not only benefited the unemployed youth but also the partner agencies that provided employment. However, the programmes were not found complementary to each other in achieving the full employment target.
- ii) Upon review of the various programmes such as ATP, DES and ESS, it was noted that programmes were targeted to different sections of the society and with a common objective to provide permanent employment. The training and programme wise modality of delivery and approach is provided in the Table 4.

Table 4: Training and Programme wise modality of delivery and approach

Sl. no.	Programme	Eligibility Criteria	Monthly Financial Benefit	Overall Objective	Remarks
1	Apprenticeship Training Programme	Minimum qualification of class VI	Nu. 1,800.00	Provide permanent employment and training to apprentice through on-the-job training.	During the period 2011-2015, 72% of the total participants registered under ATP had qualification of class X and above.
2	Direct Employment Scheme	Minimum qualification of class X	Nu. 3,750.00, Nu. 5,250.00 and Nu. 7,500.00 depending on qualification.	Support guaranteed employment through various modes of engagements and training programmes	
3	Employment Skill Scheme	Minimum Qualification of class X	Nu. 1,500.00	Provide skills required to foster meaningful and gainful employment of Bhutanese youth in the economic sectors.	

Source: MoLHR

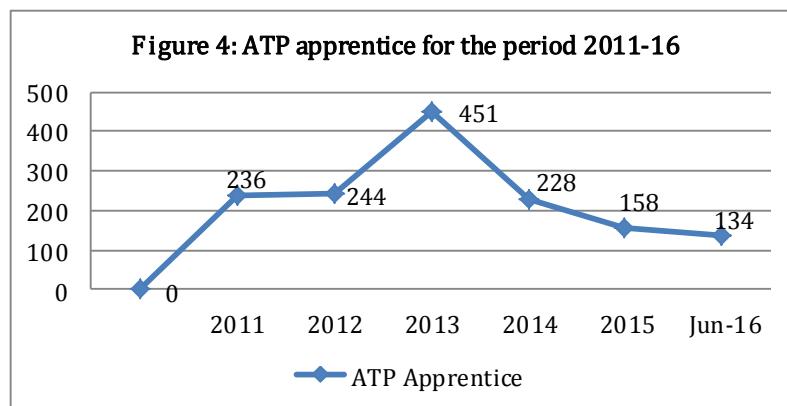

- iii) As can be seen from Table 4, the financial benefits provided as monthly allowances for programmes are fixed at different rates even though the target groups are same in case of DES and ESS. For instance, a class X pass candidate enrolled under programmes will be funded differently for all the three programmes as shown in Table 3. As a result, DES having a higher financial benefit was found preferred by the beneficiaries compared to ESS and ATP which is depicted through the information given in Table 5.

Table 5: Participants under different schemes during the period 2011 to June 2016

Year	ATP Apprentice	Guaranteed Employment Programme	
		ESS Participants	DES Participants
2011	236	NA	NA
2012	244	NA	NA
2013	451	3	NA
2014	228	455	946
2015	158	518	1812
Jun-16	134	436	726
Total	1451	1412	3484

Source: IT Section, MoLHR

- iv) As transpired from the table 5, as of 30th June 2016, the DES had enrolled a total of 3,484 participants while ATP and ESS could enroll 1,451 and 1,412 participants respectively. Table 5 also depicts that with the introduction of GEP in 2014 the number of applicants for ATP has significantly dropped. In total, DES enrolment was 120% more than ATP for the period from 2011 to June 2016, although ATP was introduced in 2000. The introduction of DES has resulted in decrease of applicants for ATP, once considered as the flagship and successful programme leading to over 50% of absorption in the job market. The trend in ATP for the period 2011-16 is illustrated in Figure 4.

- v) The stronger preference for DES as compared to other programmes primarily because of higher financial support have impeded the very objective of targeting different sections of the society with different programmes. Further, though the objective of the ESS (YES & GSP) and ATP is to help the participants and apprentices to find suitable job based on the trainings availed, the implementation of the ESS and ATP were found neglected when it comes to finding job for the candidates.
- vi) Out of the total of 1,412 enrolled participants under ESS for the period 2011 to 2016, 486 persons were found employed representing 34.5% employment after training (Refer Table 7).

The MoLHR responded that financial benefits are set depending on nature of employment facilitation programmes. However, the Ministry agreed to the issues raised and provided assurance to work on measures to harmonize the programmes so that there is no difference in the financial benefits (Refer Appendix A).

2.2.6 Lack of adequate monitoring and supervision of the programmes

- i) It is of the utmost importance for the MoLHR to have mechanism in place to supervise and monitor the progress of programmes during and after the support period to ensure that the resources allocated under different programmes are being translated into gainful employment as desired.
- ii) Recognizing the importance, the guidelines on employment generation initiatives for DES, ATP, UGIP and PEEP also necessitate mandatory monitoring and supervision. The participants under these schemes must be monitored and assessed regularly during the attachment period by the supervisor and the MoLHR/Regional Employment and Labour Offices (RELOs) to determine the progress of the participants. Further, the MoLHR is required to carry out monitoring visits from time to time to evaluate and assess the participants for certification. However, there were no records of monitoring and supervision conducted by the officials of MoLHR. Shortage of human resources was the reason stated for not being able to carry out monitoring and supervision as desired and the audit was informed that schemes were handled by a single individual and monitoring was not possible due to huge number of participants.
- iii) Nevertheless, the MoLHR has regularly visited the training institutes for inspection of the setting of the training institute. But no records were found maintained on imparted skills and course completions details by the MoLHR. It was apparent that the only mechanism put in place was on the payment of stipends to candidates based on the attendance sheet signed by the candidates as submitted by the training providers. As per the guidelines on different schemes, a participant upon selection should open a saving account with a recognized bank where monthly salary should be disbursed based on the mode of the programme.
- iv) However, instances were noted where the payment/transfer of stipend amount was made to the training provider's account without proper supervision and physical check of the candidates undergoing the respective trainings. Thus, in the absence of adequate supervision and monitoring system, the seriousness in efforts of parties involved in the programmes is questionable. This assertion is premised on the fact that there were numerous audit findings in this report that have apparently resulted from such inadequacies.

The MOLHR responded that stipend payments are strictly based on the attendance submitted by the institute or employer. It was further stated that the Ministry ensures that stipends paid through training providers to the students are supported by acknowledgements of participants having received their stipends through collection of signed receipts. Further, the Ministry has also put forward request to the banks for easy and faster opening of a saving account for young job seekers (Refer Appendix A).

There appeared to be lack of monitoring and supervision by the MoLHR to ensure that the intended objectives are met through the performance of the programme. Therefore, the Ministry should tone up the monitoring system, during and after the support period to achieve the objective.

2.2.7 Prevalence of chronic Jobseekers in the Job market

- i) The Online Job Portal System developed and implemented by the MoLHR in 2013 is an online based system that provides the applicants with job information in various private and public sectors in the country. The system is an application which connects employer and jobseekers through information on availability of jobs and related trainings. The registration in job portal is the first step towards getting registered and enrolled in various employment facilitation programmes of the MoLHR.
- ii) As of date of audit, there were 28,006 jobseekers registered and recorded in the system, out of which 10,860 are employed, 11 are not willing to join the work offered and 17,135 are still unemployed as presented in Table 6.

Jobseekers registration for GEP at Employment Service Centre, MoLHR, Thimphu

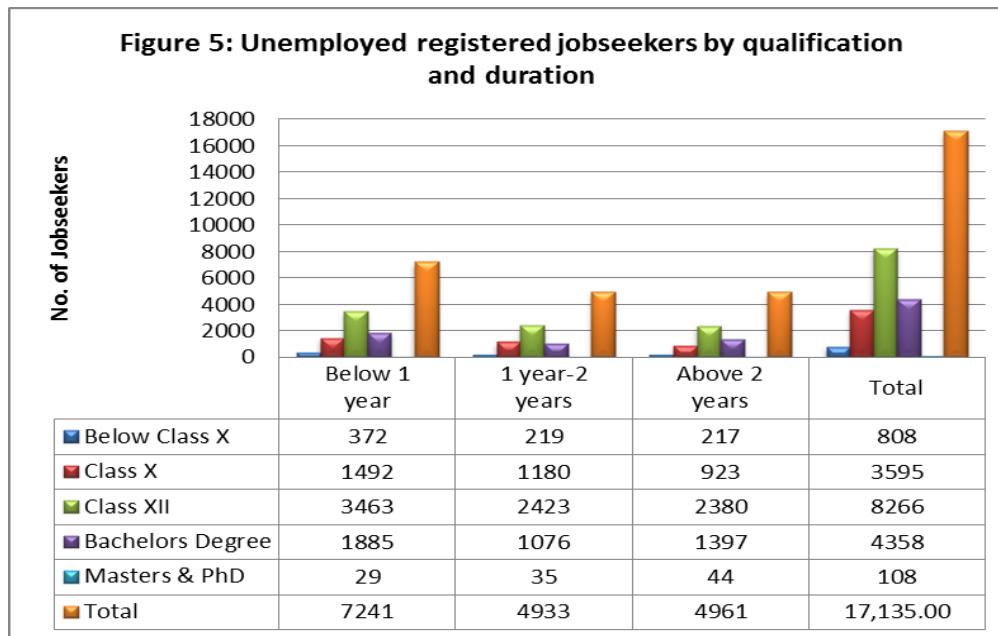

Table no 6: Registered Jobseekers' status as per Job Portal

Employed		Unemployed	Not willing to join work	Total
Employed	10,322	17,135	11	28,006.00
Undergoing training	471			
Referred	67			
Total	10,860	17,135	11	28,006.00

Source: MoLHR

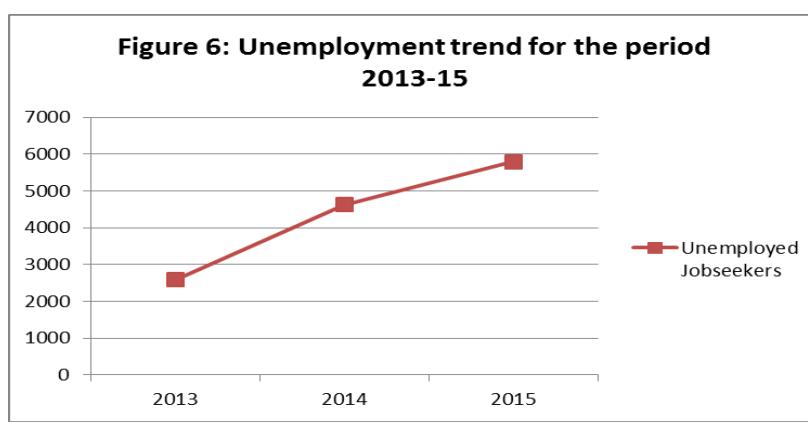

As evident from Table 6, 17,135 (61.18%) of the total registered jobseekers still remain unemployed as of 30th June 2016. 10,860 (31.12%) of the jobseekers were employed through various employment facilitation programmes of MoLHR.

- iii) Although, the guidelines on employment facilitation programmes requires preferences to be given to chronic job seekers (long term or chronic unemployment is normally defined as unemployment lasting for longer than one year - EU Statistics) in Job Portal System of the MoLHR, the RAA observed that there are many registered jobseekers of as early as 2013 still unemployed/un-enrolled under any programmes. The cases of un-enrolled jobseekers have been categorized by duration of wait and qualification as shown in the Figure 5.

Source: MoLHR

- iv) As depicted in Figure 5, currently there are 9,894 (57.74 %) jobseekers unemployed for more than a year after registration in job portal system indicating existence of huge chronic unemployment in the country. Jobseekers that remained unemployed for period less than a year constitutes 7,241 (42.25%) of which 24% accounts for 0-6 months and 18% for 6-12 months. The proportion of unemployed is persistently higher for those with qualification of class XII followed by bachelor's degree. The unemployed also includes jobseekers with qualification of Masters and PhD aggregating a total of 108 persons.
- v) Further, analysis of unemployed jobseekers for the period 2013-15 showed an increasing unemployment trend as shown in the Figure 6.

Source: MoLHR

- vi) As shown in the Figure 6, the total unemployment for the period 2013-15 represents an increasing trend which is a worrisome trend considering the fact that the jobseekers registered with the job portal are mostly with qualification level of class X and above. Out of a total of 17,135 unemployed youths, 4,467 (26.06%) are

with qualification of bachelor's degree and 12,668 (73.93%) with qualification of class XII and below.

- vii) The statistics on chronic unemployment and trend of unemployment provide enough evidence that the current economic growth and employment facilitation programmes do not exhibit efficacy in bridging gaps. The statistics on unemployed youth indicating chronic unemployment, unemployed youth with high qualification and increasing trend of unemployment show inefficiencies and ineffectiveness of the programmes initiated by the MoLHR in facilitating the recruitment, selection and appointment of unemployed youth through job portal system of MoLHR. The contrary scenario warrants serious review of the programmes to render the strategies and programmes more relevant and effective.

The MoLHR in its response stated that the numbers are not very accurate since jobseekers who find employment in the government or private sectors by themselves do not update their status in the Job Portal System. The Ministry further stated that, in view of this issue, the MoLHR has recently started deactivating those accounts that have been inactive for more than 3 months and the Ministry is hopeful that through this measure, the Job Portal System will be able to generate accurate number of unemployed persons (Refer Appendix A).

The MoLHR should ensure that the information and reports generated are accurate and reliable to enable timely and effective decision making as well as monitoring. Thus, the Ministry should improve the existing information management system for informed and right decisions including planning and assessment decisions.

2.2.8 Non-regularisation of services on completion of the contract period

- i) The MoLHR initiated several employment facilitation programmes to promote gainful employment to Bhutanese youth and to achieve full employment target of the RGoB. Under GEP, the candidates enrolled should be employed by the employer upon completion of the programme.
- ii) The guidelines on Direct Employment Scheme 2014 states "*The participant shall have the right to be regularised upon completion of the attachment as per the general clause provided in the contract agreement*". Accordingly, contract agreements were signed between the parties to regularise the employment of participants for a period of two years upon completion of the attachment period.
- iii) Under the ESS, the training providers are required to identify the occupations that shall lead to employment after training and ensure employment of the trained candidates. As required the training provider submits an Expression of Interest (EoI) along with a RMA to the MoLHR. In the EoI the training provider assures employment of the trainees on completion of the training programme.
- iv) On cross verification, the RAA noted instances of non-adherence to the contract agreements pertaining to employment regularisation of the candidates. The summary of non-regularisation of candidates under each programmes are given in the Table 7 and detailed in Annexure II.

Table 7: Cost implication as a result of Non-Regularisation

Program	No. of candidates enrolled	No. of candidates to be regularised as of 30th June 2016	Actual no. of candidates regularised	Candidates not regularised	Cost Implication (in Nu.)
DES	3,484	1,425	647	778	55,902,000.00
ESS	1,412	976	486	490	25,344,157.00
Total (in Nu.)	4,896	2,401	1,133	1,268	81,246,157.00

Source: MoLHR

- v) As depicted in Table 7, the non-regularisation cases are high totaling 1,268 out of 2,401 participants, representing 52.8%. The non-regularisation cases scheme wise accounts to 778 (54.59%) and 490 (50%) in DES and ESS respectively. This record represents those candidates who were regularised at the end of contract period. There are many candidates who are still unemployed although regularised for a short duration, adding up to the total numbers of non-regularised candidates.
- vi) The RAA worked out the cost implication of Nu. 81.246 million on training of those participants who were not regularised. The RAA was informed that 100% regularisation could not be achieved mainly because of permanent closure of the some firms, disagreements between the participant and employer and participants leaving for better jobs. Looking at the high percentage of non-regularisation, it is a cause of concern for the government due to huge investment cost. It provides to show that necessary mechanisms are not in place to ensure sustainability of the programmes and initiatives. This may have huge impact on attainment of employment goals.

The MoLHR responded that as of 30th June, 2016, 851 candidates under DES submitted their Service Regularization (SR) letter to the Ministry against the reported regularized candidate of 531 by RAA. (Refer Appendix A)

The list submitted to RAA contained 122 duplicate records. In addition, the RAA worked out 31 cases of regularized services but not enrolled in DES. Therefore, the total cases of non-regularization stood at 647 against 851 as submitted by the MoLHR as detailed in **Annexure II**.

2.2.9 Participants enrolled in more than one programme and cost implication thereof.

- i) During the system-walk-through and demonstration by official of MoLHR, the RAA was familiarized with the control mechanism to detect and prevent a jobseeker from getting enrolled in more than one employment facilitation programmes. While control mechanism exist to check and control, the RAA noted instances where enrollment in more than one scheme were not restricted.
- ii) The RAA using the data analysis software, Interactive Data Extraction and Analysis (IDEA) noted 1,027 persons enrolled in more than one programme as of 30th June 2016. This had resulted in additional cost implication aggregating to Nu.72.91 million. The summary of the working is presented in the Table 8 and details provided in **Annexure III**.

Table 8: Statement showing participants enrolled in more than one programme and cost implication

Programmes	No of records	No. of candidates	Cost implication (in Nu.)
ATP - OVERSEAS	104	52	507,600.00
ATP - GSP	28	14	978,949.00

ATP - DES - OVERSEAS	3	1	73,800.00
UGIP - DES - OVERSEAS	3	1	3,600.00
TOTAL	2075	1027	72,914,276.00

Source: MoLHR

- iii) As illustrated in Table 8, a total of 1,027 participants have been enrolled under more than one programmes while there are still 17,135 unemployed registered in the Job portal. The workings show that over the period of four years from 2013 to 2017, MoLHR had incurred total expenditure of Nu. 72.91 million in providing financial support in form of the monthly stipend and tuition/training fees.
- iv) Further, it was also noted that 98 beneficiaries have been enrolled in more than one programme and with the same employer. The details are presented in the **Annexure IV**. The job seekers take advantage of existence of various employment facilitation programmes without genuine intention to gain skills and experiences. It was noted, that the jobseekers first register and enroll themselves in programme with easy admittance such as internship programmes and apprenticeship programme. On completion of the contract period under the internship and apprenticeship programmes the participants gets enrolled with programmes under GEP and the control measures in place does not restrict such enrollments.
- v) Providing opportunities and benefits to the same individual more than once is not only in contravention to the contract agreements but also defeating the main objective of the programmes to provide guaranteed employment. Such practice had rendered gullibility of the system resulting in extending undue advantage to some

and exclusion of intended ones and depriving other eligible candidates from gaining opportunity and benefits. The impact is not only wasting huge resources but undermines equity among the potential job seekers.

The MoLHR responded that there are few cases where participants have been enrolled in more than one program under GEP mainly due to the fact that the employers were not able to employ the participants after the end of the MoLHR support or the training institutes were not able to find employment after the training period. The Ministry further stated that, those training institutes who were not able to employ participants after the training period the final 50% payment of the training fee were not paid and for those employers who were not able to regularize the participants after the MoLHR support was withdrawn, the employers were blacklisted and considered not eligible for further support (Refer Appendix A).

The MoLHR should provide the RAA with supporting documents for the justification furnished for verification.

2.2.10 Deficiencies and inadequacies in implementation of Guaranteed Employment Program

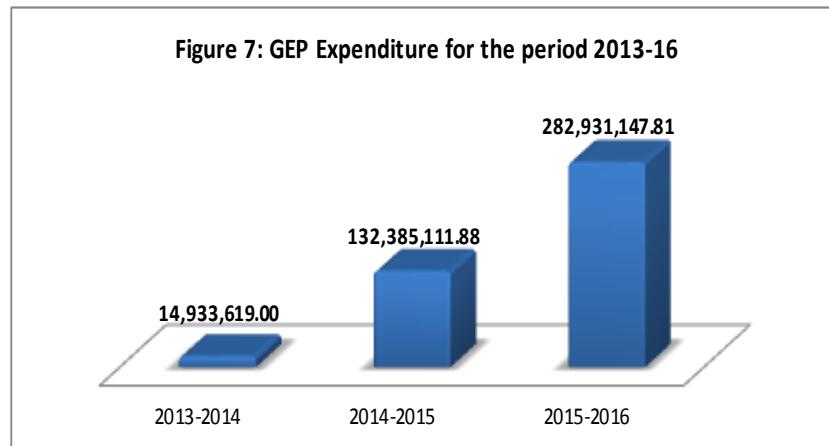

- i) The GEP is a strategic response initiated in 2014 by the MoLHR to address unemployment and is specifically designed to engage unemployed youth with class X pass and above who are willing to take up the GEP programme. All areas of engagement and training with partner agencies, both within and outside the country is intended to ultimately guarantee permanent employment.
- ii) The RGoB provided a huge commitment with allocation of Nu. 550 million for GEP as a part of the Economic Stimulus Plan (ESP). The year-wise budget and expenditure for GEP for the period 2014-16 is provided in Table 9.

Table 9: Budget and Expenditure for GEP for the period 2013-16

Sl. No	Programme	Source of Funding	Year	Annual Budget	Annual Expenditure
1	Employment Skills Scheme (ESS)	ESP	2014-2015	27,370,000.00	27,265,601.00
2	Youth Employment Skills Programme (YES)	ESP	2015-2016	38,659,000.00	31,927,711.00
3	Graduate Skills Programme (GSP)	ESP	2015-2016	5,441,000.00	5,440,149.15
4	Direct Employment Scheme (DES)	ESP	2014-2015	78,014,000.00	73,044,342.91
			2015-2016	141,623,000.00	136,363,9
		ESP	2013-2014	16,855,000.00	13,450,819.00

Balance Fund for FY 2016-2018 (in Nu.)					119,750,121.31

Source: MoLHR

- iii) As transpired from Table 9, out of the total allocated budget of Nu 550 million, the Ministry has expended Nu.430.24 million comprising 78.22 % of the total budget as of 30th June 2016.
- iv) GEP was formally implemented in July 2014. Two years of implementation of GEP saw generation of about 5,979 employments in various private and public sectors. The budget estimation was carried out based on the labour force projection and jobseeker projection during the 11th FYP. Accordingly, a total cost of Nu. 550 million was proposed and approved to support over 44,000 unemployed persons throughout the 11th FYP to maintain the unemployment rate of 2.5%. The corresponding expenditure for the last three years is depicted in Figure 7.

- v) The expenditure trend in Figure 7 shows that the budget proposal and expenditure projection was not carried out in a systematic manner. Upon review of the budget and expenditure of GEP, it was known that 78.22% of the total allocated budget had been already utilized as of 30th June 2016. The RAA was informed that the balance budget of Nu. 119.75 million (21.78%) is only sufficient to provide monthly allowances to those beneficiaries already enrolled under different schemes but cannot accommodate new beneficiaries, thus, the Ministry has to freeze recruiting additional participants.
- vi) Though the cabinet had directed MoLHR vide letter no. C-3/36/403 dated 23rd May 2014 to consider revising and increasing the monthly allowance from Nu. 1,705 to Nu. 7,500 and to increase the duration of the support from 6 months to 1 to 2 years, the MoLHR instead of preparing a new cost estimate had implemented the programme with the initial cost estimate. Accordingly, the budget approved was also based on the previous cost estimation. Therefore, the RAA is of the view that the Ministry had not conducted proper concept study, cost estimation and planning because the budget was to support over 44,000 persons over the period of five years but at this juncture only 13% (5,979 persons) of the target group were supported expending 78% of the total budget. It is apparent that the achievement of targets is not commensurate with the amount of budget utilized. Further, the additional budget required were not envisaged earlier which has detrimental effect on the sustainability of the programmes- both on current as well as future activities.

The MoLHR responded that the Ministry initially proposed for providing unemployment benefit of Nu.1,705 for about 44,309 jobseekers and the total cost was estimated at Nu. 453.28 million. However, due to huge budget implication and the unsustainable nature of the scheme, the Ministry was directed to submit a proposal on the GEP in lieu of the Unemployment Benefit Scheme. On this new directive, the Ministry of Finance informed the MoLHR that under the Economic Stimulus Plan (ESP), a budget of Nu. 550 million was set aside for Pre-employment Engagement Support Scheme under Special Support Schemes for MoLHR during the 11 FYP. Therefore after the presentation to the cabinet on the proposal, the cabinet directed the MoLHR to increase the monthly allowance from Nu.1,705 to Nu. 7,500 and to increase the duration for the support from 6 months to 1 to 2 years. Accordingly, the MoLHR revised the proposal and increased the monthly allowance to Nu.7,500 and the duration of the program to 1 – 2 years. Since the 550 million was already assigned to the Ministry, the MoLHR prepared the budget utilization plan in the proposal whereby about 3400 job seekers were to be engaged under the GEP (Refer Appendix A).

- vii) Under the DES, a candidate is employed under a specific funding modality wherein more than 50% of the payment is borne by the MoLHR based on the qualification of the candidate. The financial support from the MoLHR is extended to the participants for one to two years on a case by case basis. In most of the cases, participants remain employed till they receive monthly allowances from the MoLHR. However, many participants had withdrawn from the jobs as soon as the MoLHR support ended as the payment provided by the employer was stated to be very low.
- viii) The RAA met few in person and interacted and inquired about the reasons for leaving the job. The RAA was informed that employers did not pay salary as agreed and payments were not received on time. However, the employers had different story to tell. As per some of the employers participants did not want to work and left for better opportunities although they requested them and promised to increase their salary. The employer added that payments were made as agreed and on time. The conflicting claims arise as there is no monitoring mechanism in place. The RAA could not validate the claims of either side as there is no documentary evidence to support their respective claims. However, in order to ensure fruition of the initiatives and cost incurred by the government, such a situation necessitates the lead agency to have effective monitoring and control extended to atleast upto certain period of time. This would ensure safeguarding the interest of both the parties and avoid conflicting situations between them.

MoLHR responded that the Ministry does carry out monitoring and supervision, but if candidates find better opportunities with higher salary and perks and in another organization, the Ministry accepts withdrawal of the candidate (Refer Appendix A).

- ix) Upon review of the expenditures, it was also observed that GEP's fund amounting to Nu 17.59 million was diverted for other programmes such as PEEP, UGIP, Construction of ATP hostels and capacity building for master assessors. On the other hand programmes such as UGIP, PEEP and ATP receive annual budget from the RGoB. Upon inquiry, the RAA was informed that funds were used for the same objective of employment generation and promotion and the ATP hostel was constructed in Samdrupjongkhar fully funded under ESP to provide accommodation for unemployed youths in the region.

However, the RAA is of the opinion that the fund for carrying out GEP which was actually underestimated already due to non-revision of cost by MoLHR has been further constrained to achieve the intended target due to diversion of funds for unplanned activities. While the activities were driven by same objectives, the input in the form of funds and resources allocated and earmarked for the existing activities should not have been distorted through diversion. The activities of existing programmes stand affected to the extent the budgets were diverted. The diversion of fund could risk ability of the Ministry to focus and achieve the intended targets unless it is harmonized and designed to complement through reallocations.

2.2.11 Inadequacies in overseas employment programme

- i) Overseas employment programme was first introduced during the National Graduates' Orientation Programme (NGOP) in October 2013. Faced with an increasing number of job seekers in the country and limited absorption capacity of the economy, the MoLHR initiated the programme to ease the unemployment pressure with a target to send 30,000 jobseekers to work abroad.
- ii) The MoLHR deploys candidates for overseas employment through direct collaboration with institutes and companies abroad and appointment of Bhutanese Overseas Employment Agents (BOEAs). There are seven BOEAs operational in employing Bhutanese overseas. The DoE, MoLHR, Thimphu and Private licensed BOEAs have employed 2,353 job seekers during the period 2013-16. Of the total Bhutanese employed overseas, 1,881 (80%) were employed by the MoLHR and rest 20% by the BOEAs. As of 30th June 2015, the Government had spent Nu.41.57 million for the overseas employment programme. An overview of the overseas employment is provided in Table 10.

Table 10: Bhutanese Employed Overseas from 1st July 2013 - till date

Sl. no	Name of Agents	Occupation/Sector	Country	Uni Graduates			Class-XII			Class-X			Consolidated		
				M	F	T	M	F	T	M	F	T	M	F	T

			TOTAL	319	470	789	247	690	937	94	533	627	660	1693	2353

Source: MoLHR

The target of the government is to send 30,000 jobseekers to work abroad under the overseas employment programme during the 11th FYP period. However, for the period of 3 years from 2013 to 2016 the Ministry has been able to send only 2,353 jobseekers, which constitutes only 7.8% of the target.

The MoLHR responded that the target of sending 30,000 jobseekers overseas is actually incorrect. There is no such target reflected in the 11 FYP document and it was only a discussion paper in which this figure was mentioned. The Ministry further mentioned that the target set in the 11 FYP document for maintaining the unemployment rate at 2.5% is within the performance of the Ministry (Refer Appendix A).

The target of 30,000 jobseekers to be employed through the overseas programme has been repeatedly reported by media.

If the target of 30,000 employments was only reflected in the discussion paper, then the RAA is of the opinion that the Ministry had implemented the overseas programme without setting a clear target.

The review of programmes showed following deficiencies:

- a) **Non-compliance to the Regulation on Bhutanese Overseas Employment Agent, 2013**
 - i) Chapter 3 - Fees, Costs and Contributions of Regulation on Bhutanese Overseas Employment Agent, 2013, states '*Unless otherwise provided by the foreign employer, the principal or the BOEA shall be responsible for the payment of visa fee, airfare which shall be refundable by the BOWs within six months after securing employment and processing of work permit, if applicable*'. In contradiction to clause 3.1, the private BOEAs were found collecting money from Bhutanese applicants for visa processing, air tickets, security deposits, transportation charges, hotel and service charges, etc.
 - ii) Chapter 4 – Advertisement for overseas jobs of Regulation on Bhutanese Overseas Employment Agent, 2013, states '*The BOEAs shall advertise actual job vacancies for accredited foreign principal/project with job orders only after prior approval of the Administration*'. The recruitment and selection process shall be done as per the Recruitment and Selection Regulation (RSR), 2012'. In contradiction to the above clause, the private BOEAs such as M/s Tenzu Overseas Employment Agent and M/s Lama Youth Employment Pvt. Ltd had advertised job vacancies in the social network without prior permission of the Ministry and deployed Bhutanese overseas violating provisions of the Regulation on Bhutanese Overseas Employment Agent 2013.
 - iii) Comparing the overseas employment provided by MoLHR and BOEAs, the review indicated that Bhutanese employed overseas directly by the MoLHR had good pay and better working condition. However, the Ministry had failed to put in place

adequate safety measures for the Bhutanese employed overseas through BOEAs. As a result, the Bhutanese workers deployed overseas frequently face issues such as untimely and exploitative payments, excessive working hours, unsafe working conditions, etc. It is thus evident that the MoLHR did not effectively regulate and monitor even the small number of BOEAs in the country.

- iv) In this regard, the audit team was informed that the Ministry had penalized the agents found violating any provision of the regulation with the maximum penalty allowed as per the Regulation. Further, the Department had numerous times made submission to the Ministry to pursue monitoring of BOWs abroad. However, it was not approved. Therefore, in absence of proper monitoring and supervision, the employment status of the BOWs sent by the agent could not be examined.

b) Inadequate Monitoring and Supervision

- i) Monitoring and supervision on the operations of the BOEAs is vital in ensuring that delivery of services by the BOEAs is as envisaged in the Regulation on Bhutanese Overseas Employment Agent, 2013. Although required by the regulations, the MoLHR lacked adequate monitoring and supervision on the operations of the existing BOEAs. A review of inspection reports on the BOEAs showed that the operations and activities of the BOEAs were not adequately monitored and supervised by the MoLHR due to shortages of human resource in the division. As a result, the MoLHR was not able to detect non-adherence with the regulations by BOEAs such as unauthorised collection of fees from the jobseekers, advertising and recruiting without prior approval of the MoLHR, etc.
- ii) As a case in point, M/s Tenzu Overseas Employment Agent and M/s Lama Youth Employment Pvt. Ltd were found operating in violations of the provisions of the regulations. The BOEAs, although suspended, were able to carry out recruitment and collection of fees even during suspension period as a result of inadequate monitoring and supervision.
- iii) The deficiencies that have occurred from the violation of the provision of the regulations could not be rectified on time by the Ministry. As such, M/s Tenzu Overseas Employment Agent had unlawfully collected Nu.7.54 million from 39 candidates against visa processing charges, air tickets, security deposits, transportation charges, hotel and service charges, etc.
- iv) The Ministry failed to detect such cases of unauthorised practices by the BOEAs. Detections of occurrences of such cases could not be made on time due to inadequate monitoring and supervision. Inadequate monitoring and supervision by the Ministry can partly be attributed to lack of human resources and lack of clarity and awareness on overseas employment. Thus, inadequate monitoring and supervision by the MoLHR on the operations of the BOEAs owing to Ministries' limitations had led to delivery of poor quality services by BOEAs that had resulted in unauthorised collections of money from Bhutanese jobseekers.

2.1 Inadequacies in Labour Force Survey Report (LFSR)

- i) Labour Force Survey is an annual activity of the Labour Market Information and Research Division (LMIRD) of the DoE, MoLHR. The survey aims to provide a quantitative framework for the preparation of plans, programmes and formation of policies affecting the Bhutanese Labour market. The latest LFSR published in 2015 is the 13th nationwide labour force survey report.
- ii) Reference period taken for conducting the labour force survey in Bhutan is the week preceding the date of the survey interview. As such a person is considered employed if that person has performed some work for wage or salary, in cash or kind, profit or family gain in monetary terms during the reference period or a person who has a job or business formally attached but temporarily absent from the work and going to resume the work. While unemployment as per LFSR is defined as person belonging to working age group, who during the reference period, did not work even for one hour and had no job or business but available for work and seeking work .
- iii) Though the survey had been conducted in scientific manner using appropriate scientific survey methodology, instrument and sample design, the very need of independence in reporting the scenario of employment has been defeated by survey being conducted and reported by the MoLHR, the lead implementing agency to tackle unemployment issues in the country.
- iv) For instance, as per the LFSR 2015 the number of unemployed is 8,660 persons, however, as per the records in the job portal there are 17,135 unemployed persons as of 30th June 2016. Such differences in the number of unemployed persons can undermine the credibility, reliability and transparency in the statistics reported.

The MoLHR responded that the estimated number of unemployed person as 8,660 from LFSR is of December, 2015 and the numbers 11,152 from the job portal is as of 30th June, 2016. The comparison on these unemployed numbers from two sources would not be exactly the same since one is an administrative data and other one being a sample survey. Further, the numbers do not show a huge unimaginable difference as highlighted in the audit report (Refer Appendix).

- v) The LFS is being conducted only once every year in Bhutan. It may be desirable to conduct more than once to capture the actual labour market information as the labour market dynamics does not stay the same throughout the year. As such the LFSR is not able to capture the actual scenario of the labour market. The LFS was conducted in March and April in 2012 and before and after 2012 it was conducted in November and December. The unemployment rate in 2012 (2.1%) differs vastly from the unemployment rate of 2013 (2.9%) which may have been caused because of difference in the timing of the surveys.
- vi) Considering the social dependency culture we have in our society and the frequency of the survey, the reference period could be revisited.

2.3.1 Prevalence of underemployment

- i) According to the ILO, underemployment is identified as ‘subcategory of the employed population who worked or had a job during the reference week but was willing and available to work **‘more adequately’**. Underemployment is also defined in terms of number of hours worked in a week and accordance of nature of jobs to qualification and economic needs.
- ii) Considering the definition of underemployment, it is seen that underemployment is prevalent and invariably included in the statistics reflecting employment rate in the country. The employment and unemployment rate of Bhutan reflected in any documents or statistics is derived from the LFSR issued annually by the MoLHR. The RGoB also uses the employment rate from LFSR wherever relevant for decision makings related to employment and unemployment issues. The prevalence of underemployment in the form of employment as derived from the LFSR is as shown in Table 11.

Table 11: Underemployment in labour market

Year	Persons working less than 40 hours per week	Percentage of employed persons working more than 40 hours per week	Persons working more than 70 hours per week	Percentage of employed persons working more than 70 hours per week	Persons who looked for additional job	Percentage of employed persons looking for additional job	Total employed persons
2010	170,000	52.98	54,600	17.01	9,000	2.80	320,900
2011	54,800	16.93	67,000	20.70	9,900	3.06	323,700
2012	48,053	14.58	91,248	27.69	39,154	11.88	329,477
2013	41,302	12.30	70,413	20.96	12,475	3.71	335,870
2014	50,432	14.85	52,720	15.53	10,797	3.18	339,569
2015	63,308	18.39	52,461	15.24	9,405	2.73	344,293

Source: LFSR

- iii) The details on underemployment in Table 11 depicts that the total number of persons working less than 40 hours per week ranges from 12 % to 52% for the period 2010-2015 showing underemployment on the basis of hours worked. Further, the percentage of underemployed persons looking for additional jobs ranges from 5.29 % to 82.87% indicating these persons want to work more. There are also numbers of employed persons ranging from 15.24% to 27.69% working more than 70 hours per week indicating low payment for the work.
- iv) Underemployment in terms of looking for additional jobs was mainly concentrated in rural areas because more than 50% of labour forces are employed in agricultural sector. It is stated in Poverty Analysis Report of 2007 and 2012 that “among the employed, poverty levels are higher among those whose household head is engaged in agriculture and poor household are concentrated in agriculture” respectively.
- v) Quality of employment could be measured in terms of working hours and the income earned from the job. The statistics of our labour market shows that there were about 15% of employed persons working for more than 70 hours in 2015 and also there was substantial number of persons who looked for additional job throughout 2010-2015.

- vi) Therefore, considering the prevalence of underemployment and quality of employment existing in the labour market of the country, the government should contemplate measures to improve employment situation in the country besides focusing on reducing the unemployment rate.

2.3.2 High proportion of employment in informal sectors

- i) The informal sectors in labour market include sectors that are not formerly established and not governed by formal rules and regulations. Although such sectors generate jobs, but in many cases the jobs are low-paid and the job security is poor.
- ii) The LFSRs for the periods from 2011 to 2015 depict that in the labour market almost 80% of the employed persons work in the informal sectors. The detailed percentage share of employed persons by type of enterprise is provided in Table 12.

Table 12: Percentage share of employed persons by type of enterprise 2011-2015

Year	Formal Sectors						Informal sectors	
	Civil Service	Other government agencies	Armed Forces	NGO/ INGO	Public/Govt Companies	Private Companies	Private Businesses	Agricultural farming
2011	14.4		1.9	0.3	3.1	2.7	20	57.5
2012	13.5		1.5	0.5	2.9	2.6	19.1	59.5
2013	8.2	3.6	3.4	0.2	4.9	3.7	19.8	56.2
2014	7.1	4.3	3.5	0.1	3.9	24.3		56.7
2015	7	3.7	3.1	0.2	3.7	5.2	19.1	58.0

Source: LFSRs

- iii) As depicted in Table 12 out of the total employed persons, numbers of persons ranging from 56 % to 58% work in the agricultural farming and percentage ranging from 19% to 24% work in the private businesses, nature of employment categorized as own account worker and family worker, often characterized by unpaid family work. Own account worker and family worker basically consist of persons who operates his/her own enterprise or helps in an economic enterprise operated by a member of his/her family without payment of wages or salary in agriculture or non-agriculture sectors.
- iv) It was also noted that despite being aware of the composition of employment types in the country, the MoLHR has not taken this statistics into account while implementing employment facilitation programmes and other initiations to address the unemployment issues in the country.
- v) Though it is difficult to formalize all the sectors providing employment, however, it is important for government to notice the composition of huge share of employment in informal sectors and plan accordingly to address the issue.

The MoLHR, in its response, expressed that the major concern at the moment is the youth unemployment specifically urban youth unemployment and female youth unemployment and not on issues related to informal employment. In addition, the Ministry stated that, one of the core mandates of the MoLHR is facilitating employment programs for fresh jobseekers entering the labour market (Refer Appendix).

The RAA recognizes that the determinants of unemployment are complex and manifold. However, literature reviews provide sufficient evidence that there is a strong correlation between overall level of unemployment and the level of youth employment. In other words, youth employment is best explained by overall employment. Therefore, it is important for the Ministry to consider the composition of employment in various sectors in determining the overall employment rate and decisions related to employment facilitation programmes.

2.3.3 Increasing numbers of unemployed qualified youth

- i) The RAA had analyzed the LFSR for the period from 2010 to 2015 and noted that the unemployment rate of youth has been increasing, reaching 10.7% in 2015 as detailed in Table13.

Table 13: Youth unemployment rate for the period 2010-2015

Particulars	2010	2011	2012	2013	2014	2015
Total unemployed persons(in numbers)	11,000	10,500	6,904	9,916	9,174	8,660
Total unemployed (in %)	3.3	3.1	2.1	2.9	2.6	2.5
Unemployed youth (in numbers)	5,100	4,800	3,475	4,282	3,681	4,503
Unemployed youth (in %)	9.2	9.2	7.3	9.6	9.4	10.7
Unemployed youth percentage to total unemployed persons (in %)	46	46	50	43	40	52
Unemployed youth-Male (in numbers)	1,800	1,500	1,392	1,887	1,499	1,528
Unemployed youth- Female (in numbers)	3,300	3,300	2,083	2,395	2,182	2,975
Unemployed youth-Male (in %)	35.29	31.25	40.06	44.07	40.72	33.93
Unemployed youth- Female (in %)	64.71	68.75	59.94	55.93	59.28	66.07

Source: LFSRs

- ii) Although, the overall unemployment rate has reduced to 2.5% in 2015 as per the LFSR 2015, the youth unemployment rate has increased to 10.7% in 2015, the highest recorded during 2010-2015. Further, it is seen that more than 50% of the unemployed youth consisted of females throughout 2010-2015. Unemployed youth consisted of not less than 40% of the total unemployed persons throughout 2010-2015.
- iii) Moreover, over the years the unemployment rate is seen to be increasing in the qualification level of higher secondary and bachelor's/masters degree as shown in Table 14.

Table 14: Percentage of unemployed persons by level of education

Level of Education	Year					
	2010	2011	2012	2013	2014	2015
No formal education	38.53	30.77	21.96	10.72	4.77	7.16
Primary to Middle Secondary	34.86	43.27	42.60	32.30	33.44	23.76
Higher Secondary	18.35	17.31	20.86	22.91	32.53	31.87
Bachelors & Masters	4.59	6.73	12.74	32.38	28.97	36.73
NFE	2.75	1.92	1.25	1.04	0.28	0.15
Religious professionals	0.92		0.59	0.65		0.33
Total	100.00	100.00	100.00	100.00	100.00	100.00

Source: LFSRs

- iv) In the year 2015, the total unemployed persons of 8,660 consisted of 3,180 persons with qualification of bachelor's degree and above representing 36.73%, the highest amongst all level of qualification. The concern is further aggravated since there are increasing numbers of person undertaking minimum qualification of bachelor's degree every year whereas the availability of jobs has not increased much. Despite having several programmes initiated by the MoLHR to provide skill development trainings and internships to the youths, the unemployment rate amongst youth is seen on a rise.
- v) Unemployment amongst youth could lead to distress and mental health problem. It is important for the young people be employed in order to feel accepted in the society. Further, studies have shown that youth unemployment leads to problems associated with drug abuse, alcohol use and higher crime amongst the youth. Higher youth unemployment also has negative impact on the economic growth and productivity because there is a loss of talent and skills as a great amount of qualified youth are unable to find job and unable to put their knowledge and capabilities into producing innovation and contributing to economic growth. Moreover, high rate of unemployed youth increases the economic cost for the government, since the government has to pay more for social benefits.
- vi) Despite the importance given to reduce the unemployment rate to 2.5% by the end of the 11th FYP, strategic response seemed to be lacking to tackle rising problems of youth unemployment and unemployment among people having higher qualifications. While various programmes are initiated to create employment in general, the trend of rise in unemployment amongst youth is symptomatic of inadequate measures in place.

The MoLHR agreed to the audit finding and stated that the same has been reported to the government by the Ministry through the Labour Force Survey Reports (Refer Appendix).

2.2 Inadequate control in Information Management System

- i) The overall objective of the MoLHR in introducing and implementing the employment facilitation programmes is to address unemployment and provide guaranteed employment to youth through various modes of engagements and training programmes. In view of that, the MoLHR had developed IMS for employment facilitation programmes such as GEP, ATP-PEEP tracking system to ensure easier data accessibility and communication for people in the organizations and for better decision making at different level. The systems were developed engaging in-house expertise to systematize the information management system and strengthen monitoring and control mechanism. Upon review of the different systems, the RAA identified following shortcomings.
- ii) The system does not record past enrolment and employment history particularly for those who had availed benefits more than once from the employment facilitation programmes. The snapshot from the GEP system showing the profile page of a participant is presented below as an example.

- iii) In the snapshot the enrolment and employment history of the participant is not provided. The figure shows that the participant is registered and enrolled under DES programme at Rumi Spa and Beauty Training Institute from 1st March 2016 to 28th Feb 2017. However, enrolment under various employment facilitation schemes obtained from the IT section shows that the participant was enrolled under ESS, trained at CMI in 2004 for duration of four months. In addition, the system does not provide complete details on participants of overseas programme.
- iv) Nevertheless, during the second and consecutive enrolments the system provides a pop-up alert with information on past enrolments as shown in the snapshot below.

- v) However, the programme officer or the person enrolling the candidates can proceed to enroll the same person second time and further. The system currently lacks the

control mechanism to restrict second and following enrollment for the same person to ensure that an individual is not benefitted twice from the available facilitation programmes.

- vi) Further, from the records pertaining to the number of DES participants regularised as of 30th June 2016 noted that the list contained names that were not enrolled for the DES. There were 31 participants recorded as regularized, who were not found enrolled for the DES. The details are given in **Annexure V**. Thus, the information obtained from the MoLHR was not found to be reliable.
- vii) On cross verification of the data obtained from the programme officers' vis-à-vis data obtained from the IT official, discrepancies were noted between the two records though it came from the same source viz. Job Portal System. One of such instance is presented below as of 30th June 2016.

Name of the programme	Total enrolled as per the records obtained from Programme Officer	Total enrolled as per the records obtained from IT	Difference
Direct Employment Scheme	3,285	3,484	199

- viii) The check on the validity of the dates with regard to the date of start of the programme and end of the programme was performed. It revealed that end date of the programme was prior to the start date. There were about 73 such instances in the DES alone. There were also about 33 instances where the start date and end date of the programme were same. In one instance, the participant who was enrolled in the programme in July 2016 has ended the programme in June 2007.
- ix) The duration of the programme were also wrongly recorded in the system. For instance, programme duration for YES was recorded as six months in the system but actual programme duration was for one year.
- x) Poor input validation has led to inaccurate and unreliable data being kept on record which in turn results in incorrect generation of reports ultimately leading to wrong and incorrect decisions.

The MoLHR responded that the issues are noted by the Ministry and steps are being taken for accurate information generation from the system (Refer Appendix).

CHAPTER 4: RECOMMENDATIONS

Based on the lapses and deficiencies identified under part 2 of chapter 3, the RAA has formulated series of recommendations aimed at enhancing economy, efficiency and effectiveness in addressing unemployment in the country through improved legislation; and strict monitoring & coordination and enforcement mechanism. The recommendations are presented hereunder are primarily drawn on the basis of inadequacies in the enforcement of policies and regulations by the MoLHR and relevant agencies.

4.1 Strategic response to unemployment situation should be developed in collaboration with GNHC and other relevant agencies

Employment is one of the 16 identified NKRA s to realize the 11th FYP objective of '*Self Reliance and Inclusive Green Socio-Economic Development*'. These NKRA s are further broken down into SKRA s with corresponding Key Performance Indicators (KPIs) to measure their performance.

However, unemployment being a cross sectoral issue, the MoLHR alone does not have influence over the employment targets envisaged in the 11th FYP. Various sectors need to be taken on board and their commitments and stakes factored in for formulating a national level strategy for employment generation. The present system provides to show compartmentalized culture of working by different agencies resulting in divergent strategies which may not be complementary. The lead agency may not be able to derive synergy and thus lose convergence of intents.

The MoLHR as the lead agency for employment should embrace collaborative approach with all relevant agencies to render fruition of all related initiatives and cost incurred by different agencies in pursuing common goals. With clear delineation of responsibilities to each responsible agency, and monitoring mechanisms in place, the output sought from each agency would positively contribute towards achieving the employment target. Therefore, a clear strategic response to the problem must be developed in order to ensure communion approach, which is sustainable and effective in attaining desired outcome at the national level.

4.2 The MoLHR should develop an Employment Responsibility System (ERS)

Employment being a cross-cutting issue requires coordination and cooperation amongst multiple agencies. There was, however, lack of effective coordination and cooperation amongst various agencies. The absence of proper coordination and integration amongst various agencies had apparently impeded effectiveness and efficiency in overall employment generation and creation as per the plan target. The underlying reasons for lack of coordination amongst the implementing agencies are absence of clearly defined roles and responsibilities of various agencies in employment related activities and non-existence of institutional set up requiring information sharing and reporting on the status of employment generation on a regular basis.

The MoLHR, should develop the Employment Responsibility System (ERS) to outline clear roles and responsibilities for various Ministries/Departments and other key agencies involved in employment related activities and to facilitate a coordinated and integrated

approach towards the employment market. The MoLHR as the lead agency should play a pivotal role in promoting greater coordination and cooperation amongst all relevant agencies for a holistic and coordinated approach to employment management.

4.3 Labour market need assessment should be conducted

Many of the inadequacies in the implementation of employment generation and facilitation programmes have emanated from not conducting of labour market need assessment. The MoLHR should conduct a detailed labour market need assessment to find out the gaps between current conditions and desired conditions in the labour market. By conducting the labour market need assessment, the MoLHR would not only be able to devise the right kind of skills development and employment programmes but in the process would also be covering the evaluation of the programmes implemented.

4.4 MoLHR should establish a robust system to monitor and supervise the programmes

Absence of adequate monitoring and supervision of the employment generation and facilitation programmes initiated by the MoLHR has led to deficiencies in the implementation of the programmes.

To ensure efficacy of the programmes initiated by the Ministry as well as to ensure compliances to the rules and regulations, there should be an adequate monitoring and evaluation system over the implementation of the programmes. While some kind of monitoring and supervision exists, it needs to be beefed up to oversee compliances to regulations, ensure equity to potential job seekers and effectiveness of the trainings. The monitoring and supervision must be extended beyond completion of training to safeguard and ensure that resources spent on facilitation have translated into gainful employment and such employment is sustained.

4.5 MoLHR should conduct a detailed study on unemployed youth and come up with a strategy to provide employment to the chronic jobseekers

Review of the information on Job Portal System showed huge existence of chronic jobseekers comprising of more than 58% of the total jobseekers. In addition not being able to provide employment to several participants under different programmes as intended had worsened the issue of youth unemployment. The cases of non-regularization of employment are very high representing a total of 57.6 % for the DES and ESS.

Considering these issues, the MoLHR should conduct a detailed study on the labour market and youth unemployment in particular to understand the actual problem and develop a practical strategy improvising on the already implemented programmes and develop new design to provide employment to the chronic jobseekers.

4.6 Ensure sustainable employment generation and facilitation programmes through proper studies

The RGoB provided a huge commitment with allocation of Nu 550 million for Guaranteed Employment Programme as a part of the Economic Stimulus Plan. The government has also allocated huge budget in several other employment generation and facilitation schemes.

However, it has been observed that no proper cost estimation has been conducted and as a result the budget had exhausted without achieving the set target. It is seen that the progression of the expenditure were not equally matched by achievement of targets. This gives rise to the sustainability of the resources in achieving the targets envisaged.

Therefore, the MoLHR should institute a system of conducting proper studies at the time of conceptualizing a project. This would ensure more realistic estimation of the budget, meeting of targets and timeframe for achieving results.

4.7 Strict enforcement of Regulations on Bhutanese Overseas Employment Agent 2013 should be ensured

Review of provisions of the Regulations on Bhutanese Overseas Employment Agent 2013 and its implementation showed that the Regulations had not been enforced in earnest leading to numerous non-compliances which may potentially give rise to undesired situations for the job seekers. The MoLHR should ensure enforcement and implementation of the provisions of the Regulations by way of strict monitoring and supervision on the operations of the BOEAs to ensure efficient delivery of services in terms of overseas employment.

4.8 The MoLHR should bring changes in the existing process of conducting labour force survey for improvement

The MoLHR should consider the issues on the labour force survey report noted in this audit report regarding the objectivity in conducting labour force survey by MoLHR, frequency of survey, reference period, labour participation rate, etc. The situation in the labour market is completely different during July & August and towards the beginning of the year due to students completing academic session at the end of the year. Further, the MoLHR should consider the option of obtaining actual and accurate data compared to small sample based data on employment scenario on which the current LFSRs are based. Also, lack of independent survey may raise doubts and undermine the credibility of the survey report even if the information provided in the survey report are actual and accurate.

Therefore, the MoLHR should consider these issues and make necessary changes in the existing Labour Force Survey conducting and reporting processes.

4.9 The information management system maintained for employment facilitation programmes should be updated

Updated and adequate information is critical for effective planning, decision making and allocation of resources. The MoLHR, however, lacked complete and updated information on employment facilitation programmes and also other employment related initiatives of the Ministry thereby leading to one person availing more than one benefits ,differing and inaccurate information maintained, inability to prioritize participants due to lack of employment history of the beneficiaries, etc.. The MoLHR should maintain updated information on all employment generation and facilitation activities in the country.

CHAPTER 5: CONCLUSION

The RAA noted positive contributions towards addressing unemployment issue in the country. Besides, appropriate legislation and policy framework and guidelines, the MoLHR had instituted an employment information management system reducing administrative load and facilitating effective monitoring and supervision. The Ministry through its annual publication on labour market provides information for users at all levels of administration, decision making, planning, research, etc. The employment facilitation programmes of the Ministry had generated employments in various private and public sectors.

Despite the positive initiatives by the MoLHR, the RAA observed several inadequacies where improvements are desirable. The Ministry and other relevant agencies responsible for employment generation and facilitation have not been effective in delivering the 11th FYP target on employment in particular addressing the problem of unemployed youth. No collective mechanism was initiated to recognise areas of possible interdependence and need for coordinated approach in meeting the plan target. The implementing agencies have never come together or worked in coordination to ensure achieving the common goal of employment generation. Further, no records were maintained on the accomplishment of the implementing agencies' work towards employment creation, thus, leading to many short comings in delivering the 11th FYP target.

The absence of labour market need assessment and impact assessment system had resulted in other inadequacies in the implementation of the employment generation and facilitation programmes. Monitoring and supervision mechanisms were not in place. All these inadequacies impeded effective implementation of the employment generation and facilitation programmes. Overall, the employment facilitation programmes were ineffective in achieving the targeted number of employment, regularising jobs to all those who had availed benefits through the programmes, addressing chronic job seekers as intended, and most of all, reducing the youth unemployment rate.

Although the latest LFSR 2015 claimed achievement of target employment rate of 97.5%, the prevalence of underemployment, high proportion of employment in informal sectors, increasing numbers of unemployed qualified youths as discussed in the report, raises doubts on achievement of employment target as claimed in the LFSR 2015. Moreover, in absence of integrated, reliable and updated information on employment as well as existence of 17,135 chronic job seekers as reported in Job Portal System of the Ministry, the validity of achievement of employment target of 97.5% cannot be independently corroborated.

Owing to the inadequacies observed in the implementation of the employment initiatives and lack of coordination and coherence amongst relevant sectors and agencies, the target prescribed in the 11th FYP may not be achieved as desired.

Considering the gravity of unemployment situation, the RAA hopes that the information, findings and recommendations contained in the report would be useful in formulating appropriate strategies, effective decision making and instituting/strengthening systems and processes to achieve common goal of addressing the unemployment problem.

ANNEXURE

Employment facilitation programme wise modality of delivery and approach

Internship/Skilling/ Employment	Program title	Modality of delivery and approach
Skilling	Youth Employment Skills (YES)	<ul style="list-style-type: none"> ✓ Skills delivered in partnership with private and public; ✓ Funding based on employment guarantee; ✓ Targeted to jobseekers with middle/higher secondary qualification; and ✓ Areas identified by provider through Rapid Market Appraisal (RMA)
Skilling	Graduate Skills Program (GSP)	<ul style="list-style-type: none"> ✓ Skills developed in partnership with private providers; ✓ Funding based on employment guarantee; ✓ Targeted to jobseekers with university degree; and ✓ Skills are identified by providers through RMA.
Skilling	Skills for Employment and Entrepreneur Development (SEED)	<ul style="list-style-type: none"> ✓ Skills provided in partnership with in-country and ex-country providers; ✓ Targeted to those aspiring entrepreneurs interested to set up their business; ✓ Trainees put through entrepreneurship program post-skilling; and ✓ Skills focused on production sector.
Skilling	Apprenticeship Training Program	<ul style="list-style-type: none"> ✓ Skills based on request for apprentice from the Industry; ✓ Wide range of industries and participants covered; and ✓ Implement through cost-sharing modality with the industry.
Skilling	Special Skills Development Program (SSDP)	<ul style="list-style-type: none"> ✓ Delivered In partnership with CSO, organisation and local communities; and ✓ Targeted to special groups like women, disabled, disadvantaged and others.
Internship	Pre-Employment Engagement Program	<ul style="list-style-type: none"> ✓ Targeted to middle/higher secondary and vocational job-seekers; ✓ Maximum duration ranges from 3 months (fully funded) to 6 months (cost-sharing) with monthly minimum wage of Nu. 3,750 provided by MoLHR with flexible/voluntary top-up by the industry; and

ANNEXURE I

		<ul style="list-style-type: none"> ✓ Candidates explore internship with different industries or industry request intern to MoLHR.
Internship	University Graduate Internship Program (UGIP)	<ul style="list-style-type: none"> ✓ Targeted to university graduate jobseekers; ✓ Maximum duration ranges from 3 months (fully funded) to 6 months (cost-sharing) with monthly minimum wage of Nu. 3,750 provided by MoLHR with flexible/voluntary top-up by the industry; and ✓ Candidates explore internship with different industries or industry request intern to MoLHR.
Internship	Direct Employment Scheme (DES)	<ul style="list-style-type: none"> ✓ Funding support based on employment guarantee by the industry; ✓ Jobseekers attached with different sectors; ✓ Duration ranges from 1 to 3 years; and ✓ Salary incentive provided by MoLHR with mandatory top-up of Nu. 3,750 by the industry. <ul style="list-style-type: none"> - University graduates: Nu. 7,500.00 - Class XII/TVET graduates: Nu. 5,250.00 - Class X: Nu. 3,750.00
Skilling	Entrepreneurship training program (basic and advance level)	<ul style="list-style-type: none"> ✓ Provided to any individual interested to acquire entrepreneurship or business developments skills for self-employment or setting up their business; ✓ Training ranges from 14 to 60 days; and ✓ Post-training support is provided with licencing procedure and funding from financial institutions (which depends largely on the viability of business proposal).
Skilling/Employment	Overseas	<ul style="list-style-type: none"> ✓ Targeted to Class X pass and above ✓ Salary provided by the hiring company; and ✓ Jobseekers attached with companies outside Bhutan.
